The screen has become the to come.—Indianapolis News. medium of the drama, rather than the products of the legitimate stage. Now, all of a sudden, with the talking pictures and the radio, the human voice stages a comeback.

Out of Hollywood come stories of the difficulties of such an accomplished person as Mary Pickford.

There is a great deal to do about it

the Republicans with a lot of pen and the Democrats with something all. Miss Pickford's director is very mysterious over some new method of production in talking pictures and all the nervous notables of the silent drama are reported to be watching and listening against the time when they, too, must be vocal.

The art of the elocutionist who of agriculture, as Sir Thomas Lipused to thrill with her ahs, oohs and ton announces that the Shamrock exercises in sotto voice, is again in the land.

According to the mode, folks should become earminded. Therefore the purists are beginning to listen for imperfection and dialetical mannerisms in the great and the near great. One calls attention to Mr. Hoover's mispronunciation of ing Pennsylvania and Republican "illumines." The Hoover version those two states exchange ha-ha's. would pass current in Io-way. He uses the sounds for which "illoomuns" is a phonetic symbol. Probably the whole Mississippi valley would have thought him a little hifalutin if he had pronounced it perfectly.

Governor Smith prefers "raddio" as undoubtedly do a large number of his constituents. Certainly no one south of 14th st and east of Broadway failed to understand that in New York, which have been est mated as high as \$100.000.000 year, "a petty graft." What is Tammanyite's idea of real graft? "foist" meant "first." Governor Detroit Free Press. Smith might have upset the whole Wigwam had he deserted the vernacular of the sidewalks of New York.

All New England hears nothing out of the way when President Coolidge says "nayshun." Those who THE planetary configurations for read the Bigelow Papers of James Russell Lowell at this late date will find that they have a more or less phonetic guide not only to all the manifest. This applies to negotia Coolidge broadcasting, but to the

manity's record of self-protection by no means a bad one. To rad goes a place of great honor, or per-haps the greatest. It was radio's service, undoubtedly, to keep ship so completely out of the danger zonthat no important marine disaste has yet been reported. Even on land it is probable that the broad-cast warnings contributed materially to safeguarding both lives and property. Unless the reports of the term so far published are more exaggerated than is probable, this hurricane has been the most violent for years. Three features of its behaviour confirm this conclusion. One is its long path, for the storm seems to have moved with un-abated energy over more than 2,000 miles of ocean and land. Another feature is the relatively slow motion of the center of the whirl, averaging

# Trots On Reilly Field HOW THEY Upset May Come But Possibilities Are Slim; Cubs Defeat Giants

New York, Sept. 28.—Just between one blindfold tester and another, is the writer's disquicting story this morning that five things still car happen to the comical situation in the National League before its conclusion, three games and two days hence. It simply isn't my fault either that about six or seven of them can happen to John McGraw. He blocked his own "counter" very deitly with his countenance yest day when he failed to bring his Giants home to anything better that

cut down the middle with the Cubs while the Cardinals were all over the Braves up in Boston. As one result, the Cards ag

all over the Braves up in Boston. As one result, the Cards again were one game in front this morning, this time with only three to play. As another, the Glants now find that they must take the next two from the Cubs in order to be certain of making Sunday's final with the Cards mean the slightest thing at the pay off.

So much for the National League. The Yankees twice defeated the Tigers yesterday. So little for the American. The circumstances just about placed the Yanks in the position of being dormic two and a half. If I fail to make myself clear, it will mean about a quarter of a million to the Yankees, for it almost assured them of the pennant.

Two and a half games in front with only three to play, they are in the unencumbered position of needing only one more victory for them-selves or one more defeat for the Athletics to make the matter deflnite and official.

But the National League stretch drive still goes merrily onward. There are several eventualities that can produce this effect. One would make the two contenders win both of their remaining game against outside opposition and then play each other to the death on

Sunday. The same thing can happen if each win and lose a game, enroute; also, if each lose two. They could get it by Saturday two with the Cubs provided the Cards lost two to the Braves. And

with Allegheny college, at Meadville.

# Because it fries so crispy and sweet

SUGARDALE BACON is cured dry.

That's what makes it so different-so much sweeter and tastier-than ordinary bacon.

That's why it fries to a crispy golden brown without the annoying sputtering and spattering of wet-cured bacons.

Start tomorrow with a breakfast of this really better bacon. You'll find it on sale in all Sugardale stores as this week's Sugardale Special.

And don't forget that bacon is much more than just a breakfast delicacy. For example, the next time you have some mashed potatoes on hand, try this:

Drop one egg into the potatoes. While mixing in the egg add a dash of paprica and just enough flour so that the potatoes can be rolled into small balls or cakes. Then wrap with a strip of Sugardale bacon, securing it with a toothpick. Broil until the bacon is browned and crisp.

# These Are Your Sugardale Stores

They are well worthy of your patronage, for they safeguard your interests by specializing in pure, wholesome, delicious Sugardale Meats.

# No wringing to do . . . No water to lift

# EA5 WASHER does it all

You owe yourself a FREE demonstration of this wonderful machine

ON'T fail to see this marvel in action. The new Easy takes all the drudgery and toil from washday. It does this with new improvements and wonderful inventions.

For example, you don't have to lift and empty heavy pails of water or fuss with bother-

some valves. An ingenious little pump does all the work. There's no wringing to do. Easy washes and dampdries at the same time. Thus woolens aren't stretched out of shape. Buttons aren't broken.

See the new Easy yourself. See the wonders it works - how beautiful it is - and how easy it is to own one

You can have a personal demonstration in your own home without obligation. Just phone us. Or stop in at our store.
